
IGI 2 Covert Strike [Version 2.0.0.3][GOG] ((NEW))

Hello guys! I have an actual problem here when playing the PC game IGI 2 (IGI2:Covert Strike). The game seems to be bugged. I have only 1050 units of health in normal games (standard gaming it would have been 1000) and when i am killed in first round of round 1 all my health was lost. You get one more hitpoint when you reload. The problem is, when I have one hitpoint remaining I must reload. That means, if I have some grenades left I run for the door. If I do not have any grenades left I run for the door without any grenades. If that happens I get a BF. If I also get a BF then my health will be lost because of the BF. There is no other way to lose health if I reload. When I am attacked I walk away from cover (saving my grenades) with an empty weapon. Can anyone help me to solve the problem? Here is my PC Settings game. I checked in GOG Game Client if it is GOG, but I got a redirect. How do I unblock GOG Game Client? Here is my PC Settings game. Please help me to solve the problem. I don't know if it is so serious, but I like the game and I want to play it again.
